## ARTICLE VII-B

### PEDESTRIAN RIGHTS AND DUTIES

§770. Intent of Article. Pedestrians are the highway users most at risk in traffic. Regardless of rules of the road or right-of-way, the New York State Vehicle and Traffic Law specifically requires a driver to exercise great care to avoid striking pedestrians. However, the law also assigns pedestrian responsibilities so that they pose less of a problem to themselves and to drivers. The purpose of this article is to outline those responsibilities that are included in the state statutes but might not be generally known.

§771. Definitions:

- a. Pedestrians. Any person afoot or in a wheelchair.
- b. Crosswalk.

(1) That part of a roadway at an intersection included within the connections of the lateral lines of the sidewalks on opposite sides of the highway between curbs, or, in the absence of curbs, between the edges of the traversable roadway.

(2) Any portion of a roadway at an intersection or elsewhere distinctly indicated for pedestrian crossing by lines or other markings on the surface.

c. Right-of-Way. The right of one vehicle or pedestrian to proceed in a manner in preference to another vehicle or pedestrian approaching under such circumstances of direction, speed and proximity as to give rise to danger of collision unless one grants precedence to the other.

§772. Pedestrian Duties and Responsibilities.

- a. Pedestrians are subject to traffic regulations and must obey traffic signals, pedestrian signals and traffic officers.
- b. Pedestrians must use sidewalks when available, or walk facing traffic as far to the left as possible.

c. Pedestrians crossing a roadway at any point other than a marked crosswalk or within an unmarked crosswalk at an intersection shall yield the right-of-way to all vehicles upon the roadway.

d. Pedestrians crossing a roadway where a tunnel or overhead pedestrian crossing has been provided shall yield the right-of-way to all vehicles upon the roadway.

e. Pedestrians shall move, whenever practicable, upon the right half of the crosswalk.

f. No pedestrian shall cross a roadway intersection diagonally, unless authorized by official traffic control devices.

g. No pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close that it is impractical for a driver to yield.

h. No pedestrian shall stand in the roadway to hitchhike or conduct business with passing motorists.

§773. Pedestrian's Right-of-Way in Crosswalks and Sidewalks.

a. A driver of a vehicle shall yield the right-of-way, slowing down or stopping if need be to so yield, to a pedestrian crossing the roadway within a crosswalk when the pedestrian is upon the half of the roadway upon which the vehicle is traveling or when the pedestrian is approaching so closely from the opposite half of the roadway as to be in danger.

b. The driver of a vehicle emerging from or entering an alleyway, building, private road or driveway shall yield the right-of-way to any pedestrian approaching on any sidewalk extending across such alleyway, building, entrance, road or driveway.
